## **I. The Components: A Detailed Breakdown**

The Army JROTC Dress Blues uniform comprises several key components, each with precise requirements regarding size, location, and shape. Failing to meet these standards can result in correctional measures.

- **The Coat:** The primary component, the Dress Blues coat is commonly a dark blue, unibrested jacket. Verify it fits correctly, neither too tight nor too flabby. Buttons should be securely fastened, and any wear should be fixed

immediately. Incorrect buttoning is a common mistake.

- **The Trousers:** The trousers, also dark blue, should be sharply pressed and appropriately creased. The size should be such that they break softly over the shoe. Excessive long or short trousers are improper. The girdle should be correctly fastened, and the fastener should be noticeable.
- **The Shirt:** A extended-sleeved white shirt forms the base layer. It should be completely tucked into the trousers, with no spaces noticeable. The shirt collar should be tidy and clean.
- **The Tie:** A rich blue tie is used with the Dress Blues. It should be appropriately knotted, neat, and aligned. A carelessly tied tie lessens the entire presentation.
- **The Shoes:** Polished midnight shoes are essential. They should be immaculate and free of marks. Soiled shoes are unsuitable.

sleeves and collar), and any appropriate medals or ribbons earned. Precise placement of these emblems is crucial.
