1. **Choose your comb:** Select the comb attachment that corresponds to your desired hair length. Align the comb securely onto the clipper head.
2. **Prepare your hair:** Comb your hair thoroughly to remove any knots or tangles. Dry hair is generally easier to cut.
3. **Start cutting:** Begin cutting from the back of your head, working your way upwards. Use slow, even strokes, avoiding sudden movements. Remember to refer to your Philips SHC2000 manual for specific cutting techniques and guidance.
4. **Maintain even pressure:** Avoid pressing too hard on the clipper, as this can cause uneven cuts and potentially damage the blades.
5. **Check your work:** Regularly check your work to ensure evenness. You may need to make adjustments to achieve your desired look. Use a mirror to aid in seeing hard-to-reach areas.
