The story centers around the compelling character of Sorcha, a young woman touched by the fae, grappling with her heritage and a mysterious power she struggles to understand. This mirrors the central theme of many books in the *Otherworld* series: the blurred lines between the human and fae realms and the consequences of that intersection. The novel expertly blends elements of **high fantasy** and **historical fiction**, immersing the reader in a richly detailed world inspired by Celtic mythology and folklore.

The author expertly weaves together the tangible and intangible, seamlessly blending the physical world with the ethereal realm of the fae. We see this particularly in Sorcha's journey, which takes her into both the familiar landscapes and the hidden, perilous places of the Otherworld. This skillful integration of **Celtic mythology** is a hallmark of Marillier's writing, enriching the narrative with symbolism, folklore, and a sense of deep history. The use of specific Celtic myths and legends adds layers of depth and meaning, resonating with readers familiar with the source material while also enriching the experience for those encountering them for the first time.
