Key Features and Specifications of the 42HDS69

Understanding the specifications of your Hitachi UltraVision 42HDS69 is crucial for proper operation and troubleshooting. While the exact specifications might vary slightly depending on the regional release,

common features include:

- **Screen Size:** 42 inches (diagonal)
- **Resolution:** Likely 1366x768 (WXGA) or possibly a lower resolution depending on the manufacturing year. Many models from this era didn't always have the highest resolutions.
- **Aspect Ratio:** 16:9 widescreen

Frequently Asked Questions (FAQ)

Q1: Where can I find a replacement remote for my Hitachi UltraVision 42HDS69?

Q2: Can I connect a modern Blu-ray player or game console to this TV?

A2: Likely not without an external converter or adapter. The Hitachi UltraVision 42HDS69 lacks HDMI, a standard connection for modern

devices. You may need to use component video cables, or if the devices are older, composite or S-video cables. The picture quality will be limited by the television's capabilities.

Q3: My picture has a strange discoloration. What could be the cause?
